## Our 2025 Campaign

The goal is simple: we need more nurses in Iowa.

We ask for your support of the Cass Health Nurse Apprenticeship — a highly competitive program that provides nursing students with a mixture of clinical experiences, alleviates the financial burden of higher education, and provides a support system before and during nursing school.

Established in 2023, the apprenticeship program was made possible by a grant through Iowa's Health Careers Registered Apprenticeship Program. But the grant funds alone aren't enough.

Cass Health is heavily investing in our apprentices, making sure that all of their expenses have been covered including tuition and books, even going so far as to assist with purchasing scrubs and stethoscopes. Apprentices are also employees, and by the time they graduate from nursing school, they'll have more than 2,000 hours of paid on-the-job training.

This program is more than a workforce strategy—it's a lifeline. It's how we keep care close to home. It's how we prepare for the future.

"Because I already have a degree from IWCC, I am not eligible for any financial aid. I would have to pay for everything upfront and 100% out-of-pocket. I work full-time, and I have children in daycare. It felt absolutely impossible to go back to school. **This apprenticeship program is helping me fulfill my dream of being a nurse.**"
