## About the Foundation

The Cass Health Foundation was originally established in 1968, and its primary purpose is to support the hospital in its mission to provide a superior experience for patients, families and communities.

Today, the Cass Health Foundation helps fund hospital services, programs, and equipment. Proceeds from this golf benefit go directly to our 2022 Campaign for a specialized telemedicine stroke cart in the Cass Health Emergency Department. Last year's funds were used to purchase a central monitoring system for our Obstetrics Unit. Gifts to the non-profit organization are tax deductible.

## Our 2022 Campaign

Our foundation relies on donations from helpful, caring, and hardworking people just like you. Your gift this year will go towards the purchase of a telemedicine stroke cart. Almost 800,000 Americans suffer a new or recurrent stroke each year. This specialized telemedicine cart provided by your donations will be able to immediately help patients suspected of suffering from a stroke in the Cass Health Emergency Department.

"For potential stroke patients, it's so valuable to have an immediate consult from a neurologist," said Cass Health Emergency Department Manager Darci Young, RN. "Early recognition and treatment of stroke can make all the difference in a patient's recovery."

Any gift is meaningful and will be put to good use right here in our community. We offer our most sincere thanks for your generous support!
